

Red Jacket Resorts has supported the White Mountain Community Health Center's Emergency Medication fund for the past several years. Ken Smith and Steve Lambert of the Red Jacket Resorts presented a check for \$1,000.00 to WMCHC.

The Emergency Medication Fund is utilized for patients who are in need of prescription medication on the day of their appointment whose medical issue cannot wait for them to save the money needed to purchase those medications. Annually the fund expends \$3,000.00 for these important medications. “We are so thankful to the Red Jacket Resorts for their generosity and continued commitment to assist our patient with emergent medication needs”, commented Patricia McMurry, Executive Director of White Mountain Community Health Center.
