

Zeb's General Store Charitable Fund provided a grant of \$3,000 to the White Mountain Community Health Center. This grant will assist with education of youth at Kennett High School surrounding teen health issues. Due to the economy, State Funding to the health center has been decreased, making it necessary to eliminate some of the educational programs that have traditionally been provided to teens, as well as other important health care services. "This grant will go a long way toward restoring our outreach education program, which is so very important in helping kids build developmental assets and connecting youth and families to community resources," commented Trisha Jacobson, community outreach educator.

Zeb's donates many gift baskets to various fundraisers each year, and in 2007 the business established a charitable fund as another way to support community nonprofits serving area children. Since its inception, Zeb's Charitable Fund has awarded \$22,200 in grants to youth causes while the store has matched those contributions plus contributed an additional \$50,000 over the past five years to grow the principal. The fund balance is now in excess of \$70,000.

Zeb's General Store opened in 1991 and provides a large collection of New England made specialty foods, candies, toys, books, apparel and many gift items in a nostalgic old time mercantile setting. For further information on Zeb's Charitable Fund visit www.zeb.com.
