

The Rotary Club of North Conway presented a check to the White Mountain Community Health center in the amount of \$2,500.00. When the Rotary learned of the deep cuts by the state to the local health center, they pledged this amount each year for three years. Executive Director of WMCHC, Patricia McMurry, points out “Multiyear support such as this is important as we recover from a major decline in state financial support. Recovery is a process and will take upward to two years. We are so appreciative that the Rotarians support our efforts.”

Peter Pelletier, President of the North Conway Rotary will be featured in a Bi State Primary Care Association video at a legislative and business meeting in February talking about the importance of White Mountain Community Health Center to the local community. He points out the health center is good for the local economy through employment of residents who are patrons of local businesses. He also noted, WMCHC through a sliding fee scale provides affordable health care to employees of small businesses in the valley who lack health insurance.

Rotary is an organization of business and professional leaders united worldwide who provide humanitarian service. The members represent a cross section of the community’s business and professional men and women. The Rotary Club of North Conway, yearly completes over thirty programs to improve our community and is also involved in projects worldwide.
